"Mark was an amazing Dj at my wedding all of our guests were saying how good he was and what a great playlist he did mark certainly did his homework on our family members and what songs they would like to hear the dance floor was constantly packed with people dancing and having a good time we also had a band playing live music and mark got together with them to make sure they didn't clash with each other's songs she was also kind enough to let the band use his lighting equipment thanks mark"

"Where to start there are not enough words to say how great Mark is From booking him to meeting him it was faultless Mark really goes into depth with the couple and then the guests to ensure the night is personalised It would be easy to just play songs from a laptop but Mark really ensures that the music he plays is for your enjoyment He gets as much information on the couple and guests and engages with everyone on the night We would do it again just to have Mark djing"

Mrs Emma Boothe

"my wedding was the best day of my life and I wanted it to be just as good for the guests in the evening and not flat for the day guests my husband hates dancing but it would seem that we couldn't keep him off the dance floor all the way through the night the dance floor was full and I still have people asking for the name of the DJ Mark was truly exceptional and made my evening a memory to cherish"

Mrs Lisa Cutler

Mr Stephen Dolman

"Every occasion we have been to where Mark is DJ the dance floor has been full literally all night and with guest interaction on a personal level everyone is always thoroughly entertained and part of the night It is almost insulting to call Mark a DJ as what he offers is so much more an entertainment package He takes time to listen to the speeches and get to know your guests and this all feeds into the amazing evening of entertainment The week leading up to our wedding Mark went the extra mile and visited our venue on more than one occasion to meet with us as there had been a problem with the hotel as they wanted us to go through their own system He overcame that with them and used his own PA to make sure the atmosphere was spot on Mark is extremely professional in his approach and visits the venue beforehand not only to meet the hotel staff but to work out which lighting will work best in the room and any uplighting he can do to bring it all together His customer service is second to none and nothing is too much trouble We have been at weddings where guests have had a particular music interest and theres Mark in a mask of that pop star dancing with said guests - truly amazing On one occasion the bride was polish so Mark did no more than learn some Polish in order to invite her grandma up to dance - where else would you get that I simply cant recommend Mark enough his equipment professionalism customer service conduct on the day - simple second to none"
